The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over the art and for the reasons advanced in the previous action

The copy of the declaration of Mr. Valmassoi, filed with the 10/13/05 papers is accorded no probative value as it refers to 10/671,646 and asserts in point 5, that the prototype of the Master Spas design incorporated "all of the features recited in the claims of the present application", of course this does not refer to the instant application and as such is accorded no probative value in the instant case. On page 5 of the response, paragraph 2, '2002' should be -2000-.

If the declaration were properly presented it would obviate the Cal Spas reference, but the issue of "offer for sale" would be raised.

Any inquiry concerning this communication should be directed to Charles E. Phillips at telephone number 571-272-4893.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3751

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
